## **Living with you**

### **The Paustian Experience**

**Paustian Furniture Collection intends to fill your home and workspace with useful and attractive design. Knowing what we want, the best Danish architects and designers make up our collections.**

**Every piece must blend superior function with durable quality at a reasonable price. Measures are taken to ensure environmental sustainability throughout design and construction. We aim to create lasting value, and our means are service, style and substance.**

**What you get from us will not just stand out. It will stand the test of time.**

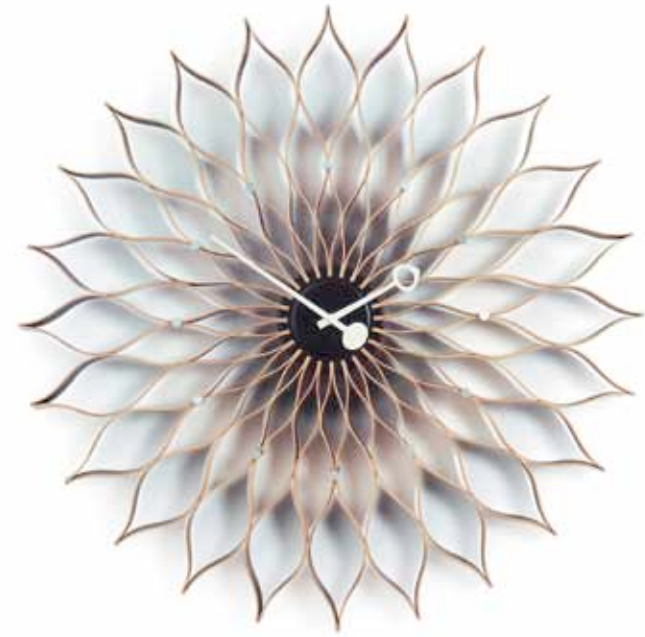

**SPINAL TABLE**  
DESIGN PAUL LEROY

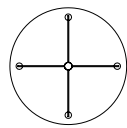

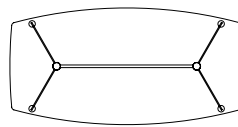

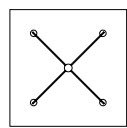

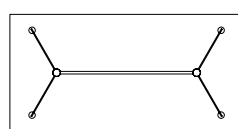

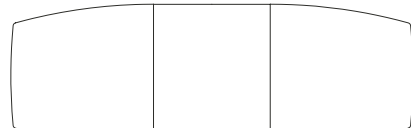

The Spinal Table is a series of tables that can meet any need, irrespective of the required size, form or application.

The table series is ideal as a conference, canteen and meeting table and as a dining or coffee table in the home.

The light, column construction gives the slim table top a floating appearance, and liberates users from bothersome table legs.

Spinal Table comes in many different sizes, in four different varieties of table tops, in three frame heights, in several surface possibilities, and as an extension table.

Other surfaces or sizes on request.  
Please ask for a price quotation.
